Subject: Voluntary Annexation Petition Received by June 2012

Executive Summary

A voluntary annexation petition has been received and reviewed for the Montclair development located at 5904 Barbee Chapel Road and 8002 Farrington Mill Road, just west of the intersection of Barbee Chapel Road and Farrington Mill Road, now requesting a public hearing on Monday, September 17, 2012 to hear citizen comments concerning the petitioned annexation and to adopt an ordinance annexing this area into the City.

Recommendation

The Administration recommends the City Council adopt an ordinance annexing the Montclair development into the City of Durham effective September 30, 2012, and authorize the City Manager to pay the debt service of the Parkwood VFD in connection with Montclair.

Background

The Administration is requesting the Council set September 17, 2012 as the public hearing date for this area requesting to be annexed into the City. The public hearing will be held in compliance with N.C. General Statute 160A-58.2. The area under review has estimated revenues exceeding estimated expenditures at within the 4 year build-out window.

A zoning agenda item will be presented by Planning involving a translational zoning action RR to RR with a subsequent rezoning to PDR 2.45 at a future date.

Alternative(s)

The Council can choose not to annex the area. In the future, the City could decide to pursue annexation through the City-initiated process. The City-initiated annexation process is much more costly and contentious than the petition process. Staff investigation of qualification criteria, education of citizens, and writing of extensive reports results in considerable administrative expense. Statutes require lengthy delays, numerous public hearings, and a referendum. In addition, citizens opposing the City-initiated annexations frequently challenge the City's action in court, resulting in delays, uncertain start dates for the annexation, and additional legal costs.

Financial Impact***Requested Zoning (Montclair):***

The estimated General Fund revenues generated from this one annexation area under requested zoning at build out in FY2015-16 would be \$140,151. The total estimated expenditures associated with providing the City services at build out in FY2015-16 would be \$39,655. The annual estimated net gain to the City at build out in FY2015-16 would be \$100,497. The cumulative estimated net gain to the City at build out in FY2015-16 would be \$355,458.

CIP expenses are realized in FY2014-15 at \$24,983 representing a 0.49% proportional cost for a new Fire Station.

A cost benefit analysis is attached that provides additional details through FY2023-24.
